**Product Name:**

Pump, fuel transfer

**Special Features:**

Boeing specification no. 10-2448-3

**Functional Description:**

A mechanical/electrical device used to transfer fuel from aircraft fuel tank to another when installed will provide a positive volume fo fuel under pressure

**Reference Data And Literature:**

T.O.1c-135a-4, figure 802

**General Description:**

Cpump unit, centrifugal; max. Discharge flow rate 150.0 gpm; total head 135.0 ft; operating speed at rated capaci type 2750.0 rpm; media for which designed hydrocarbon fuels and oils; pumping element operating position horizontal; pump rotation direction counterclockwise; pump design radial flow; impeller q type 1; impeller suction type double; stage q type 1; submersible with strainer; discharge connection 1 round flange; drive connection type close coupled

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fiig:**

A23900
