End Application:

J79-ge-17 aircraft engine

Criticality Code Justification:

Feat

Special Features:

Fscap

General Description:

Alum alloy, 7.50 x 12.60 in. Nom dim, 5.818 in. Nom distance between support arms; throttle shaft 1.177 in. L, 0.375 in. Maximum dia; feedback shaft 3.297 in. L

Reference Number Differentiating Characteristics:

As differentiated by source control no. 635e344p04

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
