**End Application:**

J79-ge-17 aircraft engine

**Criticality Code Justification:**

Feat

**Special Features:**

Fscap

**General Description:**

Alum alloy, 7.50 x 12.60 in. Nom dim, 5.818 in. Nom distance between support arms; throttle shaft 1.177 in. L, 0.375 in. Maximum dia; feedback shaft 3.297 in. L

**Reference Number Differentiating Characteristics:**

As differentiated by source control no. 635e344p04

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
