#### **End Application:**

J79-ge-17 aircraft engine

#### Criticality Code Justification:

Feat

#### **Special Features:**

Fscap

#### **General Description:**

Alum alloy, 7.50 x 12.60 in. Nom dim, 5.818 in. Nom distance between support arms; throttle shaft 1.177 in. L, 0.375 in. Maximum dia;

feedback shaft 3.297 in. L

### **Reference Number Differentiating Characteristics:**

As differentiated by source control no. 635e344p04

Shelf Life:

N/a

#### Unit Of Measure:

--

## Demilitarization:

Yes - demil/mli
