**General Description:**

Designed for partially submerged operation, electrically driven, 16.0 psi flow rate, approx 2800.0 rpm rating, vertical pumping position, one thd outlet port, size 0.875-14 nf, flange mounting w/12 holes, 0.281 in. Dia, equally spaced on oval flange approx 7.015 in. Lg by 5.126 in. W, external discharge, for use with fuel and oil

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
