**General Description:**

9designed for submerged operation, electrically driven, 20 hp, ac current, 180 min to 220 maximum volts, 380 min to 420 maximum cps, 60.0 maximum amps, for use with fuel and oil, 160.0 gpm output, 115 min to 170 maximum psig rating, 11600.0 rpm, horizontal pumping position, rotates clockwise, single stage impeller, inlet port w/strainer, one outlet port, o/a dim. 10.000 in. Maximum lg by 11.875 in. H by 7.875 in. W, oval flange mounting w/20 holes, size 0.281 in. Min to 0.307 in. Maximum dia, equally spaced on 11.320 in. Bcd, external discharge

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
