General Description:

Designed for partially submerged operation, nonpositive displacement, 1 impeller, 27v dc, 3.1 amps, 300 phr using jp4 fuel, 5.655 in. Lg, 5.280 in. Diameter o/a dim., 3/8 in. Internal pipe thd discharge ports, 12 holes 0.283 in. Diameter equispaced around mtg flange on 4.750 in. Diameter circle, 2 conductor electrical lead 15.920 in. Lg ends processed with lug terminals

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
