**General Description:**

Float-operated shutoff valve and pressure vent for aircraft fuel tank; operating pressure 120psig, ambient temp range -65 - 160 degrees f; solenoid data 18 - 30 v dc, current 0.5 amp maximum at 28 v dc continuous cycle; parts incl cap, 3-954-106, piston assembly, 3-954-71, body, 3-954-104

**Fsc Application Data:**

Aircraft fuel system

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
