General Description:

Designed for partially submerged operation, non positive displacement, 1 impeller, 115/200v ac, 400 cps, 3 ph, 27400 phr at 12 psi rated capacity using jp4 fuel, 10.000 in. Lg, 8.512 in. W, 4.000 in. H approx o/a dim., 4 holes 0.281 in. Diameter drilled through 4 mtg feet on 3.145 in. By 4.700 in. Ctrs, 4 wire insulated electrical lead processed w/4 terminal lugs, w/3 thermal protectors, w/bypass valve, internal discharge boss 1.500 in. Id

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
