End Application:

Tf34-ge-100 aircraft engine

General Description:

Mtg holes 0.70 - 0.80 in. Diameter 4 places 2.0 in. W by 3.0 in. Lg c-to-c; length mtg holes to sensor tip 4.0 in, mtg holes to end of fittings

3.425 - 3.545 in., width 3.925 in. Max; part of t2 sensing system

Fsc Application Data:

Aircraft eng fuel system components

Reference Number Differentiating Characteristics:

As differentiated by source control no. 4071t72p01

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
