End Application:

F100-pw

Special Features:

Engine fuel system component for augmentation

Material:

Nickel alloy

Reference Data And Literature:

Tube-augmentor number 4, spray manifold, segment; to.2j-f100-24, f.95

General Description:

F-15e

Type/model Designation:

Pw-220/220e

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
