End Application:

F108-ge aircraft engine

Product Name:

Vbv case assembly

Special Features:

Match assembly with p/n 5255-267

Reference Data And Literature:

T.O.6j3-4-113-4, f.2-7

General Description:

Serves as housinf for mechanical linkage portion of variable bypass valve an intricate component of main engine fuel controls p/n 9278m96p09 and 9278m96p10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
