Inside Diameter:

Between 0.265 inches and 0.266 inches

Outside Diameter:

2.200 inches

Overall Height:

0.187 inches

Shoulder Height:

0.125 inches

End Application:

Valve, 7587199, b-1b aircraft fuel system

Lower Surface Width:

0.4845 inches

Special Features:

Circular groove one side 0.638 in. Od, 0.2085 in. W, 0.052 in. Dp.

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-200/11, alloy 7075, t6511 federal specification 1st material response or qq-a-225/9, alloy 7075, t6 federal specification 2nd material response

Media For Which Designed:

Fuel, jet

Style Designator:

Plain

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A539y0
