**End Application:**

Spacer special

**Special Features:**

Cylindrical in shape; length 5.94 inches diameter 3.36 inches; inside diameter 3.26inches; material aluminum alloys 2024-t851, qq-a-225/6 ultrasonic; surface treatment mil-c-5541; used for b-2 bomber

**General Description:**

U/o main boost pump; serves as physical protection for pressure relief valve p/n daa3272p035-201

**Fsc Application Data:**

Engine feed system part of daa3139b005-037

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
