End Application:

F-18

Product Name:

Valve, tank defuel

Special Features:

Temperatures fluid p225f for 5 min max

Functional Description:

Designed for turbine fuel jp-4 of jp-5 per mil-t-5624

Material:

Aluminum alloy

Supplementary Features:

Operating pressure rating 120psig, rated flow 40gpm

General Description:

Temperatures ambient m65f to p160f continuous

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
