Mounting Hole Diameter:

0.250 inches

Submersibility:

Nonsubmersible

Mounting Facility Spacing:

Mounting holes 2.936 in. C to c, 180 degrees apart

Voltage Rating:

12.0 volts

Plunger Stroke Length:

0.046 inches

Engaging Linkage:

Not included

Accommodated Linkage Unthreaded Hole Diameter:

1.000 inches

Contact Manual Closing Provision:

Not included

Control Terminal Quantity:

1

Control Terminal Type:

Threaded stud

Grounded Control Terminal:

Included

Main Terminal Quantity:

1

Main Terminal Type:

Threaded stud

Control Terminal Quantity Internally Connected To Main Terminal:

1

Mounting Facility Type And Quantity:

2 hole

Special Features:

Furnished with helical spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T130-h
