Terminal Quantity:

5

Terminal Type:

Threaded stud

Frame:

Included

Design Current Rating In Amps:

Between 150.0 and 400.0

Submersibility:

Nonsubmersible

Mounting Facility Quantity:

6

Radio Interference Shielding:

Not provided

Mounting Facility Spacing:

2.562 in. C to c and 2.938 in. C to c

Mounting Facility Size:

0.219

Mounting Method:

Threaded studs

Voltage System For Which Designed:

24.0 volts

Cut-in Voltage Rating:

Not rated

Cutout Voltage Rating:

Not rated

Cutout Current Rating:

Not rated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T130-j
