Cross Sectional Shape:

Flat

Leadlength:

6.750 inches

Special Features:

0.147 and 0.201 in. Diameter holes punched in opposite ends of conductor

Material:

Copper core conductor single conductor

Fsc Application Data:

Startermotor, engine, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
