Cross Sectional Shape:

Round

Leadlength:

10.625 inches

Conductor Form:

Stranded all conductors

Round Conductor Size:

12 awg single conductor

Terminal Manufacturer Identifying Reference Number:

1916646 1st end single conductor

Terminal Commercial And Government Entity Code:

16764 1st end single conductor

Surface Treatment:

Tin core conductor single conductor

Fsc Application Data:

Engine generator, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
