**Mounting Hole Diameter:**

Between 0.654 inches and 0.672 inches

**Mounting Hole Quantity:**

3

**Mounting Flange Shape Style:**

Triangular

**Barrel Outside Diameter:**

5.750 inches

**Unpackaged Unit Length:**

20.08 inches

**Unpackaged Unit Height:**

5.18 inches

**Lock Test Current Rating In Amps:**

500.0

**Shaft Rotation Direction:**

Clockwise

**Armature Actuation Device Type:**

Relay-solenoid

**Features Provided:**

Submersible and fungus resistant treatment and corrosion resistant

**Voltage In Volts:**

24.0

**Special Features:**

For peripheral (ring gear) engagement; heavy duty; min. Life 45000 cycles; operates in temps -65f to +160f; 350 lb-ft static torque at drive; vibration and shock resistant

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23400
