Mounting Hole Diameter:

0.404 inches

Mounting Flange Shape Style:

Trapezium

End Application:

Special aircraft and eng tools

Engaging Mechanism Style:

Peripheral outboard gear drive w/worm shaft and torsion drive spring w/drive housing

Engaging Mechanism Opening Angular Deviation In Deg:

3.1

Lever Actuation Method:

Solenoid

Shaft Rotation Direction:

Clockwise

Armature Actuation Device Type:

Relay-solenoid

Voltage In Volts:

24.0

Terminal Type And Quantity:

1 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23400
