Mounting Hole Diameter:

10.672 major mils and 10.922 major centimeters

Mounting Hole Circle Radius:

63.500 millimeters

Mounting Flange Shape Style:

Trapezium

End Application:

2320-01-353-9098

Engaging Mechanism Style:

Direct jaw drive w/friction clutch

Shaft Rotation Direction:

Clockwise

Features Provided:

Corrosion resistant and fungus resistant treatment

Voltage In Volts:

24.0

Terminal Type And Quantity:

2 threaded stud

Specification Data:

81349-mil-s-3785e government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23400
