End Application:

Tractor, caterpillar, model dtg.

Engaging Mechanism Style:

Peripheral outboard gear drive w/worm shaft and friction clutch w/drive housing

Shaft Rotation Direction:

Clockwise

Armature Actuation Device Type:

Relay-solenoid

Storage Type:

Heated warehouse

Features Provided:

Corrosion resistant

Voltage In Volts:

24.0

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23400
