Terminal Quantity:

3

Terminal Type:

Threaded stud

Environmental Protection:

Submersible

End Application:

Truck, fire crash p-2

Shock Mount:

Not provided

Radio Interference Shielding:

Not provided

System Voltage Rating:

12.0

System Ground Polarity:

Negative

Voltage Regulator Unit Quantity:

1

Current Regulator Unit Type:

Wire wound coil integral w/voltage regulator unit

Reverse Current Overload Circuit Breaker:

Not included

Field Relay Unit:

Not included

Special Features:

Regulator.Transistor with 4 mounting holes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A18400
