Overall Length:

5.000 inches

End Application:

Both 04s004w (31px6), dual generator, main switchboard and 04s004bm(31px6) , single generator

Product Name:

Series ku base mount double row terminal blocks

Special Features:

Trating: 60a (achieved with number 6 copper wire crimped to ring terminal) and 600v. Center spacing: 0.625 inches. Number of poles: 6.

Wire size: awg number 6 cu max. Screw size: number 10-32 brass nickel plated. Torque rating: 20 in/lb max. Distance between barriers:

0.437 inches. Mounting: base mounted. Material: molded black base (ul rated 94v-0 thermoplastic; terminal plating is nickel over brass;

screws are nickel plated brass. Operating temperature: 105 degrees celcius max.

Material:

Plastic and nickel alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
