Overall Length:

4.340 inches

End Application:

Navy code 72a090001 through 72a090007

Voltage In Volts And Current Type:

600.0 ac/dc

Special Features:

30 ampere terminal block 6 circuit; double row of 6 terminals each

Material:

Plastic nylon

Supplementary Features:

Base matl is phenolic; bus matl is nickel-plated brass; screw size is no. 8 to secure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
