**Overall Length:**

4.340 inches

**End Application:**

Navy code 72a090001 through 72a090007

**Voltage In Volts And Current Type:**

600.0 ac/dc

**Special Features:**

30 ampere terminal block 6 circuit; double row of 6 terminals each

**Material:**

Plastic nylon

**Supplementary Features:**

Base matl is phenolic; bus matl is nickel-plated brass; screw size is no. 8 to secure

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
