Electrical Terminal Block - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/2920-01-583-3245

Overall Length:
7.700 inches
End Application:
Navy code 72a090001 through 72a090007
Voltage In Volts And Current Type:
600.0 ac/dc
Special Features:
30 ampere terminal block 12 circuit; double row of 12 terminals each
Material:
Plastic nylon
Supplementary Features:
Base matl is phenolic; bus matl is nickel-plated brass; no. 8 screw size to secure
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23900
