Mounting Hole Quantity:

3

End Application:

0525lp1135256

Product Name:

Starter, engine, electrical

Special Features:

Starting motor pinion diametral pitch: 8/10 pinion gear outside diamete (mm): 40.5 pinion gear offset (mm): 3 pinion drive type: offset mounting flange type; sae number 1 3 bolt 90 frame size diameter (mm) 100 pilot diameter (88.9 starter motor length (mm): 244 starter motor engine mounted angle (deg): 47(+/-15; sealing provision; sealed supply method: mounted removal length (mm): 66 manufacturer: denso; model: r7.5; voltage: 24 kilowatt rating: 7.5 nameplate brand: cummins jump start protection: yes pinion position-rest (mm): 47.8 pinion position-engaging (mm) : 66.8; motor, starting option st9409

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23400
