Diameter:

Between 4.540 inches and 4.620 inches

Length:

Between 11.000 inches and 11.120 inches

End Application:

Gtcp85-71 gas turbine compressor

Heat Transfer Method:

Indirect

Special Features:

Oil inlet and outlet connections located on top of tank

Height:

Between 6.040 inches and 6.170 inches

Style Designator:

Cylindrical

Fsc Application Data:

Engine cooling system components, nonaircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A28500
