System For Which Designed:

Pressurized

Sealing Length:

0.750 inches

Pressure Relief Method:

Manual

Maximum Working Pressure:

14.000 pounds per square inch

Features Provided:

Breather hole and integral vacuum relief valve

Style Designator:

Closed cooling system type w/ loose vacuum valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A083a0
