Width:

3.380 inches

Thickness:

3.360 inches

Material Thickness:

3.360 inches

Length:

19.760 inches

Oil Flow Rate:

154.0 pounds per minute

Core Frontal Area:

131.0 square inches

Heat Transfer Method:

Direct

Effective Heat Transfer Surface Area:

3.6 square feet

Height:

10.900 inches

Material:

Aluminum housing

Style Designator:

Upright straight finned type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A28500
