Product Name:

Oil cooler and relief bypass valve assembly

Special Features:

Inle (oil) temp -65 degrees f to 350 degrees f(-53, 8 degrees c to 176, 7 degrees c); oil inlet pressure 300 psi(2068, 4kpa); valve cracking pressure 50 to 70 psig(344, 7 to 482, 7 kpag); weight(dry) 3.75 lbs (1, 7 kg); length 8.0 in. (203, 2mm); width 3.75 in. (95, 3 mm) ; height 3.75 in. (95, 3 mm)

Supplementary Features:

Assy c/o finned core and collector housing which is brazed to the core; in and out ports located on top of cooler, nipple is provided in each port to aid to connect to engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A28500
