Body Diameter:

8.375 inches

Body Inside Diameter:

6.750 inches

Design Type:

Reusable

Bodylength:

4.500 inches

Filtering Media Design:

Mesh single filtering media response

Special Features:

Element is ounted by flange 6 holes with gasket; used on grumman aircraft moel a10

Material:

Aluminum alloy filtering medium

Style Designator:

Cylindrical w/closed ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
