Flow Direction:

Inside out

Differential Pressure:

100.0 pounds per square inch

End Application:

Apu installation, c-17 acft

Temperature Rating:

Between -60.0 degrees fahrenheit and 350.0 degrees fahrenheit

Filtering System For Which Designed:

Full flow

Special Features:

1.125 in. Lg; 0.439 in. Dia; operating pressure 1500 psi; operating fluids; aviation gasolines, combat gasolines, jp-4, jp-5, diesel oil, and kerosene

Media For Which Designed:

Fuel/oil, hydrocarbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
