Design Type:

Nonreusable

Storage Type:

Unheated warehouse

Filtering Element Quantity:

1

Rotation Method:

Manual

Second Intake Connection Relationship To First Intake Connection:

Identical

Special Features:

Filter, fluid for locomotive application

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
