Body Outside Diameter:

7.500 inches

Body Height:

19.750 inches

Filtration Rating In Microns:

1.0

Flow Direction:

Outside in

Design Type:

Nonreusable

Temperature Rating:

200.0 degrees fahrenheit

Filtering Media Design:

Mesh single filtering media response

Special Features:

Removes contaminants as low as 1 micron, filters synthetic and petroleum base fluids, removes water from fluids

Material:

Steel body

Media For Which Designed:

Fuel/oil, hydrocarbon

Style Designator:

EII type (hydraulic)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
