End Application:

Sh-2g

Temperature Rating:

Between -65.0 degrees fahrenheit and 300.0 degrees fahrenheit

Maximum Operating Pressure:

60.0 pounds per square inch

Product Name:

Filter assembly, main and auxiliary lubrication, ngb

Special Features:

Pressure proof 90.0 psi, burst 180.0 psi; fluid mil-l-23699 and dod-l-8573 (as) oil; rated flow 5.5 gpm; filtration rating b; nha pn k874502

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
