Body Outside Diameter:

5.000 inches

Body Height:

11.470 inches

Flow Direction:

Inside out

Design Type:

Nonreusable

Filtering Media Design:

Encased 3rd filtering media response

Product Name:

Element assembly

Special Features:

Element includes 1 filter head, 1 filter bowl, 1 o-ring (bowl), 1 o-ring (element) and 1 visual indicator; length for filter removal 7.37 inches, filtration rating is 100 microns

Material:

Copper alloy body and nickel alloy body

Media For Which Designed:

Water

Style Designator:

Threaded shell (mason jar)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
