End Application:

Filter, fd press tf3

Tempurature Rating:

Between -20.0 degrees fahrenheit and 225.0 degrees fahrenheit

Unit Quantity:

1

Maximum Operating Pressure:

300.0 pounds per square inch

Special Features:

Flow rating: up to 30.0 gpm for 150sus fluids. Min yield pressure: 1200.0 psi. Rated fatigue pressure: 270.0 psi, per nfpa t2.6.1-1974.

Bypass setting cracking: 50.0 psi, full flow 72.0 psi. Materials: porting head-aluminum, element case-steel. Element change clearance: 3.50 inches. Porting: 1 5/16 inch str. Thd. Weight: 6.7 lbs.

Material:

Steel container/cartridge

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
