End Application:
Nha: pre-filter
Product Name:
General purpose filter for compressed air
Special Features:
Part number breakdown: f68=selector; e=long bowl and element; n=no yoke; a-ptf threads; d=mechanical service life indicator; q=manua
drain 1/4 turn; u=bowl-1 quart with liquid level indicator; 1=5 microns; max. Pressure 250 psig; operating temperature: 0 - 175 degrees f;
body, yoke, and bowl aluminum; pyrex liquid level indicator; sintered bronze or polypropylene element; synthetic rubber elastomers
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
