End Application:

Nha: pre-filter

Product Name:

General purpose filter for compressed air

Special Features:

Part number breakdown: f68=selector; e=long bowl and element; n=no yoke; a-ptf threads; d=mechanical service life indicator; q>manual drain 1/4 turn; u=bowl-1 quart with liquid level indicator; 1=5 microns; max. Pressure 250 psig; operating temperature: 0 - 175 degrees f; body, yoke, and bowl aluminum; pyrex liquid level indicator; sintered bronze or polypropylene element; synthetic rubber elastomers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
