Body Diameter:

4.5 inches

Bodylength:

11.37 inches

Product Name:

Coreless spin on filter

Special Features:

Operating pressure moap: 500psi fatigue 400psi, element collapse rating 150 psid, element condition indicators gauge 0-60 psi color coded for use in low pressure applications, material head die cast aluminum, bypass valve nylon w/steel spring, filter element fiberglass and polyester w/nylon end caps, bowl steel, core steel, sae 20 integral,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
