End Application:

F-11 aircraft

Special Features:

Height 0.50 in.; diameter 1.0 in.; item is made out of non corrosive metal; 500 psi max; traps up to .008 ia particales; used on after burner actuator assembly; goes into hydraulic actuator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A24000
