General Description:

Temperature range 65 to 275 degree f, flow rate 10gfm of engine oil pwa 521b type ii, filtration 10 microns , clean pressure drop at rated flow at 250 degrees f 5 psi , filter media epocel 10 element collapse differential pressure 75 psi

Fsc Application Data:

Aircraft engine test overhaul

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
