**Overall Width:**

2.770 inches

**Differential Pressure:**

50.0 pounds per square inch

**End Application:**

Used on uh-2a seasprite helicopter

**Design Type:**

Nonreusable

**Temperature Rating:**

Between -65.0 degrees fahrenheit and 300.0 degrees fahrenheit

**Bodylength:**

4.525 inches

**Special Features:**

Rated flow 10 gpm; non cleanable

**Style Designator:**

Rectangular (incl square)

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24000
