**End Application:**

C-130j aircraft

**Mounting Method:**

Screw

**Product Name:**

Indicator, electrical, impending bypass, fuel filter

**Special Features:**

Has visual indicator and an electrical output to an indicator in the cockpit; mounting - has flange with 4 unthreaded holes, and uses 2 o-rings for sealing. Tech order 1c-130j-4-73-1 fig 1 index 70 note: tech order has incorrect cage 21833 which should have been 21883, cage 21883 is replaced by 31435

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A523d0
