End Application:

Recovery vehicle (m51/m74/m88)

Special Features:

Metal construction; exhaust inlet has mounting flange; compressor air inlet is 90 degrees from exhaust inlet; mounting pads are integral to housing; alignment marks and letters are located on center housing clamping flange and on compressor housing clamping flange; an oil drain tube is attached to the compressor air outlet; used on diesel engine; mounts on engine right side

Special Test Features:

After performance test completed assembly shall not leak more than the rate of five cc in the compressor section nor more than eight fl oz in the turbine section while submerged to a depth of sixty inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T135-j
