Overall Length:

8.400 inches

End Application:

Fire-crash truck; teledyne vehicle systems, p-23

Wattage Rating:

300.000 watts

Voltage In Volts And Current Type:

120.0 ac

Special Features:

Heating element w/out cord and thermostat

Material:

Stainless steel

General Description:

Element sheath dia, 0.318 in.; with a 1-11 1/2 2a npt connection and 1.125 in.Hex w across head

Thread Size And Series/type Designator:

1.000-14 uns

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
