Wall Thickness:

0.0490 inches

End Item Source:

94833

Design Form:

Prebent

End Item Name:

REFR-IG-ERA-TION

End Item Model Number:

F10000rd

Usage Location:

Exhaust pipe

Outside Diameter:

2.0000 inches

Special Features:

Wfirst end 0.1300 x 1.5000 inches long, notched four places 90 degrees apart, straight length 20.8800 inches; alternate material, aluminized steel, for aluminized steel (2.0000 x 16 ga) open first end inside diameter only to 1.8800

Material:

Steel comp 304

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A500u0
